ORIGINAL ARTICLE

Vertical fracture resistance of roots retreated using different instrumentation techniques <i>D. Helvaciođlu-Yiđit, A. Yılmaz, S. Sarıdađ, E. Avcu, Y. Yıldırın</i>	1
Cone-beam Computed Tomographic Evaluation of Severely Curved Canals Instrumented with ProTaper Next, WaveOne, and OneShape file systems <i>E. Çiçek, M. M. Koçak, S. Koçak, B. C. Sađlam, M. İçen</i>	7
Effect of Movement Kinematics on Canal Transportation: Reciprocation with Different Angles, Adaptive Motion, and Continuous Rotation <i>E. Karataş, H. Arslan, E. Kol, I. Ş. Bayrakdar</i>	13
The self-confidence levels of senior dental students during endodontic treatment procedures <i>T. Ayhan, G. Barut, J. Tanalp</i>	19
The time dependent effect of various irrigation systems on the reduction of <i>E. faecalis</i> in experimentally infected root canals <i>E. Karataş, M. H. Uyanık, A. Abbas, D. Özsü, H. Arslan</i>	23
Cyclic fatigue resistance of ProTaper Universal, Twisted File Adaptive, Reciproc and WaveOne systems <i>H. Ertaş, I. D. Çapar, H. Arslan</i>	30

CASE REPORT

Management of a perio-endo lesion associated with palatogingival groove <i>E. Ercan, K. T. Ceyhanlı, B. C. Uzun, B. Kılış, T. Taşdemir</i>	35
Treatment Of An Extraoral Cutaneous Sinus Tract With Endodontic Intervention: A Case Report <i>R. Zan, F. Kanmaz, K. E. Akpınar, I. Hubbezođlu</i>	39
Non-Surgical Endodontic Retreatment and follow-up of an Endo – Perio Lesion: A Case Report <i>T. Bora</i>	43
Conservative management of a periradicular lesion associated with a palatogingival groove <i>H. Arslan, S. Köseođlu, H. Ergün, E. Tarım Ertaş</i>	47
Root canal treatment of permanent mandibular first molar with six root canals: a rare case <i>E. Çiçek, N. Yılmaz, M. İçen</i>	52
